

Ethos Environmental, Inc.

ETHOS FR- PRODUCT DESCRIPTION

Protected by U.S. patents, Ethos FR is a unique combination of high-quality, non-toxic, specially designed esters that uses only the elements of carbon, hydrogen and oxygen. It significantly reduces emissions, fuel consumption, and engine maintenance costs. Ethos FR provides an immediate, cost-effective strategy for fighting air pollution caused by fossil fuels and the internal combustion engine. This patent combination of low molecular cleaning esters and the high molecular lubricating esters, reformulates any fuel whether it's gasoline, diesel, methanol, ethanol, hydrogen, LNG, compressed natural gas or bio-diesel. When blended with fuels, Ethos FR reduces the emissions of hydrocarbons (HC), nitrogen oxides (NOx), carbon monoxide (CO), particulate matter (PM) and other harmful products of combustion. Yet, the emission of O₂ is significantly increased. EPA laboratory tests confirm that Ethos FR is 99.99976% clean upon ignition and ashless upon combustion. Ethos FR is free of carcinogens.

Ethos FR is a light yellow colored, multi-functional fuel reformulator. It is designed for use in all fuels to increase power and mileage, dissolve gums and varnishes, lubricate upper cylinder components and keep the entire fuel system clean and highly lubricated. It is recommended for use at 1 part in 1280, which is equal to 1 fluid ounce of Ethos FR per 10 gallons of fuel.

Typical Specifications

<u>Tests</u>	<u>Results</u>
Viscosity @ 37.8° C,CS	10.39
Viscosity @ 100° F, SSU	60.2
Specific Gravity @ 15.6/15.6°C	0.93
API Gravity, Degrees	24.6
Flash Point, COC, °C (°F)	149°C (300°F)
Color and Appearance	Light Yellow, bright and clear
Sediment	None
